

IN THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A taping tool for cleaning taped seams of drywall comprising:
a pole having a general U-shaped bracket at one end;
a roller connected by a first securing means to the general U-shaped bracket;
and
a general L-shaped bracket having a horizontal leg and a vertical leg,
wherein the horizontal leg includes openings for a second securing means to secure the general U-shaped bracket to said general L-shaped bracket.
2. (Original) The taping tool according to Claim 1, wherein the vertical leg includes openings for a third securing means to secure a blade to said general L-shaped bracket.
3. (Original) The taping tool according to Claim 1, wherein said roller has a solid core.
4. (Original) The taping tool according to Claim 1, wherein said roller has an increasing diameter from the ends of said roller to a middle of said roller.
5. (Original) The taping tool according to Claim 1, wherein said roller has a same diameter from one end of said roller to the other end of said roller.
6. (Canceled)
7. (Original) The taping tool according to Claim 1, wherein an other end of said pole has a female fitting.
8. (Original) The taping tool according to Claim 1, wherein an other end of said pole has a ball-like object connected thereto.

9. (Canceled)
10. (Canceled)
11. (Original) The taping tool according to Claim 1, wherein the opening comprises slotted openings.
12. (Currently Amended) A taping tool for cleaning taped seams of drywall comprising:
- a pole having a general U-shaped bracket at one end;
 - a roller connected by a first securing means to the general U-shaped bracket;
 - a general L-shaped bracket having a horizontal leg and a vertical leg,
 - wherein the horizontal leg includes openings for a second securing means to secure the general U-shaped bracket to said general L-shaped bracket; and
 - a blade having openings at generally its base to receive a third securing means to secure said blade to the vertical leg, and
 - wherein said roller and said blade are arranged on generally parallel vertical planes, generally opposed to each other.
13. (Original) The taping tool according to Claim 12, wherein said roller has a solid core.
14. (Original) The taping tool according to Claim 12, wherein said roller has an increasing diameter from the ends of said roller a middle of said roller.
15. (Canceled)
16. (Original) The taping tool according to Claim 12, wherein the opening comprise slotted openings.
17. (Currently Amended) A taping tool for cleaning taped seams of drywall comprising:
- a pole having a general U-shaped bracket at one end;
 - a roller connected by a first securing means to the general U-shaped backer;
- and
- a general L-shaped bracket having a horizontal leg and a vertical leg,

wherein the horizontal leg includes openings for a second securing means to secure the general U-shaped bracket to said general L-shaped bracket,

wherein the vertical includes openings for a third securing means to secure a blade to said general L-shaped bracket, and

wherein the blade has a greater width than a width a said roller.

18. (Original) The taping tool according to Claim 17, wherein said roller has a solid core.

19. (Original) The taping tool according to Claim 17, wherein said roller has an increasing diameter from the ends of said roller to a middle of said roller.

20. (Canceled)
